

15681

15681 FINE-GRAINED OLIVINE-NORMATIVE ST. 9A 0.30 g
MARE BASALT

INTRODUCTION: 15681 is a small fragment (Fig. 1) of a fine-grained, olivine-bearing basalt which is macroscopically similar to samples 15674 through 15678, which are fine-grained, porphyritic olivine-normative mare basalts. 15681 was collected as part of the rake sample from Station 9A. It has never been subdivided or allocated.
